Projects

Agentic Blog Generator and Translator — *(Python, NLP, LLMs, Generative AI)* GitHub

- Built an AI agent system that generates long-form blog content end to end and translates it into multiple languages
- Chained LLM calls into a generation-to-translation workflow, automating drafting, rewriting and localisation in a single pass

RAG Therapy Chatbot — *(Python, NLP, Retrieval-Augmented Generation)* GitHub

- Developed a retrieval-augmented conversational agent that grounds mental-health responses in a curated document store, reducing unsupported model output
- Implemented the retrieval and response-generation pipeline for context-aware, personalised multi-turn conversations

Content-Based Recommendation System (IMDb) — *(Python, Scikit-learn, Pandas)* GitHub

- Built a content-filtering recommender over IMDb movie metadata, ranking titles by feature similarity to generate personalised suggestions
- Handled feature extraction and vectorisation of movie attributes, then scored candidates with similarity metrics

Certifications

- NPTEL — Introduction to Industry 4.0 and Industrial Internet of Things, IIT Kharagpur (2026)
- Maharashtra State Certificate in Information Technology (MS-CIT)
- Infosys Springboard — Navigate Your Next
- Spoken Tutorial Project, IIT Bombay — R Training
- Kaggle — Advanced SQL
- Certificate of Excellence — Java: Mastering the Fundamentals

Extra-Curriculars

Social Media Team Member, Mudita Sep 2024 – Dec 2025

- Planned and executed social media content strategy for the club
- Created posts and reels that grew audience engagement across campaigns
- Coordinated campaign schedules while working alongside the wider team
